

Year 3

Year 3 have embarked on an incredible journey through time, exploring the fascinating Roman Empire over the last 3 weeks. We kicked off our adventure by delving into the beginnings of the Roman Empire, discovering how it all started with Romulus and Remus.

Next, we dived into the thrilling story of Boudicca - the formidable warrior queen, who fearlessly challenged the mighty Roman forces! Our young historians were awe-inspired by her bravery and determination. In our latest discoveries, we journeyed to Hadrian's Wall, uncovering its purpose as a formidable barrier in Roman Britain. Year 3 are really enjoying learning about the Roman Empire.

Year 4

This week in Year 4, we have been learning about how archaeologists use artefacts to learn about the past, and have been exploring the rise of Ancient Sumer, one of the world's first civilisations.

In Maths, we have been learning all about time, and how to convert between the 24 hour and 12 hour clock.

We have also been asking ourselves the question 'What does it mean to be good?' in RE, and exploring what Buddhism teaches about this.

Year 5

We've had another busy, fun-filled week in Year 5. In Maths, we completed our unit on angles and shapes and have moved on to our next topic - position and direction.

For our writing, we've continued to develop our narrative based on the book 'The Kid who came from Space' and we've studied the history and relevance of 'May Day' as one of our reading comprehensions.

In addition to all of that, other things we've studied include: The ancient Minoan civilisation in Greece, the adolescent stage in human development, festivals in Judaism and completing a rally in Tennis.
